

Road Map:

- Benchmark 3 : Beta Version on April 22nd
- Between now and April 22nd:
 - Discussions of Accessibility, Security and Deployment
 - Reflection 5 due next week
- After Benchmark 3:
 - Reflection 6 due on the last day of class
 - Presentation to the customer on May 8th (Final Exam Slot)
- Note: If you have questions for the customer, please reach out soon!

Website Accessibility:

- Maximizing the number of users who can have a good experience interacting with your website
 - Users with vision or hearing limitations
 - Users with limited mobility or lack of precision clicking
 - Users with Dyslexia or other conditions affecting reading
- Having a website that works well with a variety of assistive technologies
 - Screen Readers
 - Captioning / Subtitles
 - Keyboard-only Interfaces

In-Class Exercise (work with 1-2 partners):

- Read / Watch at least 2 Web Accessibility User Stories at <https://www.w3.org/WAI/people-use-web/user-stories/>
- Browse best-practices for authors, designers or developers at <https://www.wcag.com/>
- At least one of you should install the WAVE Web Accessibility Plug-In at <https://wave.webaim.org/>
- Visit www.ut.edu using the plug-in.
Additionally, visit at least one other site that you frequently visit.
 - Does the plug-in provide any useful suggestions for improving the websites? Or do the websites meet all best practices?
- Collaborate with your team to identify at least two specific things that you (have done or) could do to improve the accessibility of your CIRT project.
- We will discuss what you found as a class later in the class period.
